- ★ Meet Mark Summers, Founder of MasterCAM
- ★ Bring Your Parts & Discuss Your Application with our engineers
- ★ Enjoy The Best New England Clam Chowder, Food & Refreshments Served All Day

FX, the latest addition to the Fadal family, features box way construction, Fanuc 0i-MC CNC and best of all - the most competitive pricing in the VMC market. FX comes in 3 sizes - FX2216 (X22"Y16"Z20") is priced at \$45,750 complete to your floor. Come see the machine live cutting. Also check out many other models in stock.

2,000 IPM

With a built-in 4th axes rotary table and auto pallet changer, Enshu HMC is ideal for un-manned "lights-out" production. Come see our lightening fast JE60S in action, talk to our engineers to find out how it handles aero-space, medical & communication parts.

32,000 RPM

High Speed Milling is no longer an option, it is a necessity. HSM becomes more practical and affordable. It's not only within the reach of mold and specialty shops, but also for everyday job shop work. Our VIBRA-FREE line has grown to 3 sizes, with the entry model priced at \$79,950.

Super precise turning, live tools, C axis milling and VDI quick-change turret are all essential for the booming medical machining. Our EMCO E45 TM delivers these features for under \$75,990. Open house features a E45 live cutting.

Mill-Turn

Date:  
March 14,15

Hours:  
10:30am~7:30pm

Location:  
6 Electronics Ave.  
Danvers MA 01923
